HOME WITH HELP OF FLORIDA, INC.

Providing Services in Palm Beach and Broward County

Michele Farkas, RN

Home With Help of Florida, Inc. is celebrating 10 years in south Florida providing services for clients in Palm Beach and Broward Counties. Michele Farkas, RN BSN, is the owner/Nursing Administrator and was a Nursing Administrator in Brooklyn, New York prior to moving to Florida, where she supervised home care services for over 600 patients, mostly Holocaust survivors. Ms. Farkas started her own company in 2007 in Boynton Beach, because she believed that there was a need for personalized, respectful and consistent home based care in Florida. As an observant Jew, Ms. Farkas understands the special issues that beset Holocaust survivors in addition to the ordeals of aging. Her experiences, both personal and professional, make her a sensitive and qualified nurse who implements innovative and appropriate services for her clients. Ms. Farkas and her staff believe that caring, consistency

and sensitivity are key to keeping her clients healthy and happy and able to stay at home safely. Ms. Farkas and her staff personally train their aides on all aspects of kosher kitchen management and familiarize them with Jewish issues, such as Shabbos and holidays. Working with her are field nurses who are also observant and have extensive nursing and home care experience. Ms. Farkas prides herself on the relationships she has with her clients and their families and keeps numerous "thank you" notes and letters above her desk, and she can frequently be found visiting her clients or speaking on the phone with their families. Ms. Farkas lives in Boynton Beach with her husband and is a member of Anshei Chesed. Home With Help receives many referrals from the Rabbis in the community as well as synagogue members and current clients and their families.
